

Table 2
Community Health Care Services Satisfaction
% Responding Very Satisfied or Satisfied

Data that concerned the health council were the ratings of “not adequate” in the community health services category. Over 70 of the respondents felt that services for child abuse and neglect were available in the community but not adequate to address the issue. The top five services that were ranked as available but not adequate also include alcohol and drug abuse, health promotion and education, nursing home/residential care and elderly nutrition.
